QUANTUM PHYSICS JINGLE

By Lee Avera

It is a fact, whether we know it or not
that something was here in the beginning!

Smaller than the quanta we plot
must lie a grid with a lot
of man/God underpinning.

There, 'neath the smallest there is
~~lies~~ a web of potential being, a crossing
of what has been mixed with what God's tossing

.. all a part of His divine biz:

What price the "ity" of potentiality
if ruled out is man in the birth of totality?
