

Dear Suji:

September 20, 1993 Lee Avera

This is a note that needs no answer. It is simply a sharing.'

In a messy drawer of my bureau among notes addressed to myself I found some things that perhaps are worth sharing.

"In our cabin 11.05 P.M. 5 years ago 10/8/88. To myself: "

REALITY IS A HOLOGRAM OF ALL THAT IS!  
GOD AND REALITY ARE ONE !

PHYLOGENY LEADS TO ONTOGENY WHICH OF COURSE MEANS HISTORY AND KNOWLEDGE PRECEDES DEVELOPMENT.

Forgive and love yourself, the pundits say is an important station along the way.

Forgiveness, however can only come after acquaintance with yourself is turned into knowledge by experiment and observation.

Even as effect only follows cause (the reverse is against the pale!) I must remember self acquaintance began long ago before this body was hale.

Let the years role back, let me peer through the tears and years to self acquaintance primal!

Forgiving and loving is a precious intimacy which transcends the barrier of new self from old self.

Remember forgiving self is concomitant to forgiving the world!  
Forgiving the self is concomitant to loving the world!

Propinquity of old self to new self provides what we need along the way. In the clear pale light of early self acquaintance iniquity is seen to be simple ubiquity and not culpability!

TO KNOW THE SHINING SOUL OF ALL PEOPLE IS TO FORGIVE AND LOVE ALL PEOPLE.

'for the poor and those with plenty, phylogeny leads to ontogeny!

Love

Lee
